WILD BEAR FOTOHUNT 1 DAY

Date of start: Every Saturday from April to November /according to your wish.

Program:

We will start our adventure with car/minibus from Ljubljana/your place between 16:00 and 19:00 (it depends from year's season). Car is driven by tourist guide, who is also driver. Our path will lead us south from Ljubljana, passing Vrhnika and Cerknica towards Stari trg pri Ložu, romantic village in the middle of the Notranjska forests. There we will meet professional hunter/guide, who will lead us into the woods. Our stay will be feeding place for wild animals. Above it stands lookout, which will be our shelter. During walk, we will learn more about natural habitat of wild animals and carnivores (Slovenia is still today home for wild wolf, European lynx and brown bear), probably we will also spot wild bear or wild wolf footprints which will awake in us rush of adrenalin, however that makes this adventure very special and unforgettable.

After we will settle on watch, waiting and quiet will bring us chance to spot game or bear. Possibility that wild bear will be visible is between 70% - 90%, possibility to spot deer is even higher. Only condition is complete silence. For perfect photo moment, lookout is 7 meters high and 35 meters far from feeding place.

After return to the village, we will stop in one of the village traditional restaurants. Easy meal will be finished, return trip towards Ljubljana/your place will follow.

**Excursion is completely safe, extra safety also assures armed hunter escort.
There is possibility that no animals will be visible.**

Max. amount of guests: 4

Transfer could be organized from any place in Slovenia or neighboring country.

Price per person:

1 pers	150 EUR
2 pers	100 EUR
More that two pers	85 EUR
